COUNTY COMPLIANCE GUIDE

This compliance guide was developed to implement a risk-based approach to testing compliance requirements. In implementing a risk-based approach, compliance requirements will be selected to test based on the compliance risk assessment. To document the auditor's consideration of risk, a code compliance risk assessment form has been included in this guide.

Each compliance requirement in this guide has been placed into one of four categories. The categories are based on significance of the compliance requirements. The table below provides a description of each category.

Category	Description
Items which must be tested – required comments or public expectation of oversight.	
1	Test and document annually. (required statutory report comments)
2	Test on a rotating basis, at least every three years, based on risk assessment. Workpaper documentation required.
Inquiry with limited observation and documentation:	
3	Inquire about compliance only if considered necessary based on risk assessment. Document the entity's response to inquiry and observation in remarks column. (If auditor becomes aware of non-compliance it should be addressed).
Addendum:	
4	Items which are not considered to be significant – test if considered necessary based on risk assessment and specific audit situation (if auditor becomes aware of non-compliance in one of these areas it should be addressed). If procedures are performed, include workpaper documentation as necessary.

Procedures

- 1) Review prior year comments and enter "07" in the "Non-Compliance Noted/FY" column for each compliance requirement that had a comment.
- 2) Based on the risk of non-compliance set for each compliance area, indicate which procedures will be performed during the current year's audit with a tick mark in the "Selected" column. Keep in mind that your audit approach to compliance may need to be revised based on information obtained during the course of your audit. If you are aware a compliance requirement does not apply, indicate "N/A" in the "Selected" column.
- 3) Perform compliance procedures as selected.
- 4) Enter "08" in the "Non-Compliance Noted/FY" column for each compliance requirement that had a comment.
- 5) Guide should be filed in the Permanent File for multiple year use.

2008 Revisions

- 1) Current year new or revised procedures have been noted as **(08)**.
- 2) The following procedures were deleted from the prior year guide:
Budgets – Procedure 4.
- 3) In addition to this updated County Compliance Guide, we have made available a 2008 County Compliance Guide Supplement which details changes made to the prior year County Compliance Guide. The supplement may be used to update the prior year compliance guide in lieu of completing a new guide each year.
